SUMMARY

I am an Information Systems graduate from Kuningan University with experience in website development, data processing, graphic design, and UI/UX design. I have been involved in various projects related to web development, system management, visual design creation, and data organization, which have strengthened my technical and analytical skills. I possess strong problem-solving abilities, adaptability, and the capability to work effectively both independently and collaboratively in a team environment.

EDUCATION

Universitas Kuningan <i>Information System — Computer Science — GPA: 3,67</i>	2022 - 2026
SMKN 1 Luragung <i>Multimedia</i>	2019 - 2022
SMPN 1 Luragung	2017 - 2019

WORK EXPERIENCE

Losari Jaya Motor <i>Full Stack Developer</i> - Developed a stock circulation and inventory management website for Losari Jaya Motor as a Full Stack Developer. - Designed and implemented features for stock tracking, inventory management, and data reporting. - Built both frontend and backend systems to support efficient business operations. - Collaborated on system development to improve accuracy and efficiency in managing inventory data. - Applied problem-solving and web development skills in a real-world business environment.	2025 - 2026
Putra Sukanta Motor <i>Frontend Developer</i> - Developed the user interface for a web-based stock and inventory management system. - Designed responsive and user-friendly web pages to support inventory tracking and stock circulation processes. - Collaborated with backend development to ensure smooth system functionality and data integration. - Improved user experience by optimizing interface design and website usability. - Applied frontend technologies to create an efficient and visually organized management system.	2025 - 2025
Pagarraya <i>Staff as Content Designer</i> - Designed and delivered 3–5 engaging poster designs, infographics, and Instagram feed content weekly to support branding and audience engagement. - Created impactful promotional materials for major events and community campaigns using Canva, ensuring visually appealing and consistent designs.	2025 - 2025

- Collaborated effectively with design and marketing teams to develop creative, informative, and audience-focused visual content aligned with campaign objectives.

Microsoft Azure AI

2025 - 2025

Participant

- participated in a 4-month training program on Microsoft Azure AI, where I learned about cloud-based artificial intelligence services, including machine learning, cognitive services, and AI integration within Azure platforms

Junior Network Administrator

February 2023 - March 2023

Participant

- Completed Junior Network Administrator training using Cisco Packet Tracer.
- Learned networking fundamentals, including IP addressing, subnetting, routing, switching, VLAN configuration, and network troubleshooting.
- Designed and configured network topologies using routers, switches, and other networking devices.
- Developed practical skills in network administration, management, and troubleshooting.

Internship - Design

2021 - 2021

Graphic designer

- Completed a 6-month field internship in the Graphic Design division.
- Assisted in creating visual content, including logos, posters, and promotional materials.
- Gained practical experience in basic branding and visual communication concepts.
